

MEET THE MEMBERS

Richard & Marcia James

Richard and Marcia James live in Whitewater where Richard was and Marcia is a professor at UW-Whitewater. Richard bought his 1964 Stingray Roadster in November of 1963 and has put over 185,000 miles on it since. They took his 1964 Corvette on their 1978 honeymoon while driving west through Nebraska, Wyoming, Colorado, and Utah for a calf branding in Wyoming and a float trip down the Colorado River in Utah. In 1989, when the car was 25 years old, it received "Silver Certification" at the Bloomington Gold Event. Richard just finished a complete restoration and was able to do sweat equity on the project. All the numbers match and his goal is to keep his car totally original and to use the car as a road versus a show car.
